AD/BELL 212/47 Lower Planetary Spider Gear 9/91 DM

Applicability: All Models.

Requirement: Action in accordance with Bell Alert SB No. 212-91-66.

Compliance: As directed in the Requirement Document with a revised effective date 12 July 1991.

Background: A special inspection of the main gearbox lower planetary spider gear P/N 204-040-785-003 has been introduced by the manufacturer after fatigue cracking has been detected.
