AD/BAe 146/9 Amdt 1 — Steering Ring Cuff Nut — 4/89

Applicability: All models.

Requirement:

1. Action in accordance with BAe SB 32-A95.
2. Modify in accordance with BAe SB 32-95-70409A.

Note: UK CAA AD 014-08-88 refers.

Compliance:

1. As detailed in the Requirement Document.
2. Prior to 30 June 1989.

Background: Insecurity of the steering cuff ring nut has resulted in unscrewing of the ring nut. This allows the steering cuff to drop resulting in a loss of nose wheel steering. Amdt 1 provides for terminating action.
