

Airbus Industrie A319, A320 and A321 Series Aeroplanes

---

**AD/A320/15**                      **Low Pressure Fire Fuel Shut-Off Valve**                      **2/91**

Applicability:    A320, all models.

Requirement:    Inspect and/or modify subject aeroplanes IAW French AD 90-190-015(B).

*Note: French AD 90-190-015(B) refers to Airbus Industrie SB A320-28-1028 rev.1.*

Compliance:    As per Requirement Document.

Background:    To avoid an incorrect closure of the low pressure shut-off valves in the low pressure fuel shut-off valve actuator.
