AIRWORTHINESS DIRECTIVE

On the effective date specified below, and for the reasons set out in the background section, the CASA delegate whose signature appears below revokes Airworthiness Directive AD/ENST 28/3.

Enstrom F-28 Series Helicopters

AD/ENST 28/3 Cable Gauge/Circuit Protection Coordination - Modification 9/2009

Requirement: CANCELLED.

This AD is cancelled on 27 August 2009.

Background: This unique Australian AD raised in 1974 required a modification to meet the standards expressed in obsolete Air Navigation Order 108.32 so that cable gauge/circuit protection co-ordination is complied with.

Compliance was before issue of a certificate of airworthiness.

This AD has been sufficiently promulgated over an extended period for the affected helicopters to have been modified by now; therefore this AD is considered to be no longer required.

This AD has been reviewed in accordance with the AD review program. The AD required a modification that has been sufficiently promulgated. This AD is therefore cancelled.

James Coyne
Delegate of the Civil Aviation Safety Authority

30 June 2009
