AIRWORTHINESS DIRECTIVE

On the effective date specified below, and for the reasons set out in the background section, the CASA delegate whose signature appears below revokes Airworthiness Directive AD/BEA 121/13.

Beagle B121 (Pup) Series Aeroplanes

AD/BEA 121/13 Internal Door Lock Operating Handle 7/2009

Requirement: CANCELLED.

This AD is cancelled on 2 July 2009.

Background: This AD, raised in 1972 against Beagle Service Bulletin (SB) No. B121/23, required a modification by the painting of a white line at the base of the flight lock trigger of the internal door lock operating handle of both doors. Compliance was required within 100 hours TIS after 29 September 1972.

As all affected aircraft would have been modified long ago, this AD is no longer required.

David Villiers
Delegate of the Civil Aviation Safety Authority
