

Boeing 727 Series Aeroplanes

---

**AD/B727/32      Nose Landing Gear Actuating Bracket - Inspection      6/66**

Applicability: All models with nose landing gear actuator brackets, P/N 65-16370-1, which have accumulated 1000 hours total time in service.

Requirement: Remove Bracket P/N 65-16370-1 and inspect for cracks initiating at all bolt holes using a fluorescent dye penetrant or eddy current technique.

Compliance: At intervals not exceeding 600 hours time in service.
