

Boeing 727 Series Aeroplanes

---

**AD/B727/120**

**Fuel Tank Access Doors**

**9/90**

Applicability: All models.

Requirement: Action in accordance with Boeing SB 727-28-0101.

Compliance: Prior to 30 October 1991.

Background: The incorporation of the Service Bulletin enables aircraft to comply with FAR 25.963(e) which provides for some fuel tank access panels to have a higher resistance to impact to reduce possibility of penetration from engine debris or objects thrown by the aircraft tyres.
