

Boeing 747 Series Aeroplanes

AD/B747/18	Lower Cargo Doorway Lower Sill Truss and Latch Support Fitting - Inspection	11/79
-------------------	--	--------------

Applicability: All models.

Document: 1. FAA AD 79-17-02, Amdt. 39-3526;
2. (Boeing SB 747-53-2200 refers).

Compliance: As per requirement document No. 1.

Background: Overseas it has been found that the 7079-T6 truss and related 7079-T6 latch support fittings on the lower sill of forward and lower cargo doorways can exhibit corrosion, cracking and blocked drainage paths.
