

Agusta A109 Series Helicopters

**AD/A109/3
Amdt 1**

**Passenger and Pilots' Door Emergency
Release Mechanism**

9/86

Applicability: All models A109A and A109AII.

Requirement: Action in accordance with Agusta Bollettino Tecnico No. 109-48, Revision A.

Compliance: As per the Requirement Document.

Background: An operator has experienced the loss of a passenger door during flight as a result of a failure to observe the correct refitting procedures. Amendment 1 introduces a modification that simplifies the inspection procedure.
