
AIRWORTHINESS DIRECTIVE

On the effective date specified below, and for the reasons set out in the background section, the CASA delegate whose signature appears below revokes Airworthiness Directive AD/A109/15.

Agusta A109 Series Helicopters

AD/A109/15

**Modification of Overhead
Console Relay Boards**

9/2009

Requirement: CANCELLED.

This AD is cancelled on 27 August 2009.

Background: This unique Australian AD raised in 1989 against Agusta Bollettino Technico 109-73 required a modification of overhead console relay board assemblies to improve electrical compatibility with generator control box (GCB).

Compliance was on replacement of GCU box in accordance with the requirement document, but in any case, prior to 26 January 1990.

This AD has been sufficiently promulgated for the affected helicopters to have been modified by now; therefore this AD is considered to be no longer required.

James Coyne
Delegate of the Civil Aviation Safety Authority

30 June 2009
