## AIRWORTHINESS DIRECTIVE

---

On the effective date specified below, and for the reasons set out in the background section, the CASA delegate whose signature appears below revokes Airworthiness Directive AD/AA-1/4.

---

### Gulfstream (Grumman American/ American Aviation) AA-1 Series Aeroplanes

#### AD/AA-1/4                      Fuel Tank Contents Manometer Vent Lines -                      6/2009 Modification

Requirement:    CANCELLED.

This AD is cancelled on 4 June 2009.

Background:    This AD, issued in 1972, required inspection of each fuel tank contents manometer vent line to ensure the vent line is not kinked. The AD compliance was before the issue of a Certificate of Airworthiness. As all aircraft would have been inspected, the AD is no longer required.

James Coyne  
Delegate of the Civil Aviation Safety Authority

24 April 2009
