
AIRWORTHINESS DIRECTIVE

On the effective date specified below, and for the reasons set out in the background section, the CASA delegate whose signature appears below revokes Airworthiness Directive AD/AA-5/6.

Gulfstream (Grumman American/ American Aviation) AA-5 Series Aeroplanes

AD/AA-5/6

Fuel Tank Vent Lines - Modification

6/2009

Requirement: CANCELLED.

This AD is cancelled on 4 June 2009.

Background: This AD, issued in 1973, required modification of the fuel tank venting system which included the replacement of all PVC plastic hose connectors with fuel resistant rubber hose connectors and replacement of spring wire type hose clips with screw type hose clips. The AD compliance was within 100 hours time in service after 31 August 1973. As all aircraft would have been modified by now, the AD is no longer required.

James Coyne
Delegate of the Civil Aviation Safety Authority

24 April 2009
