AD/AT/7

Horizontal Stabiliser Eyebolts

5/2009

Requirement: CANCELLED.

This AD is cancelled on 7 May 2009.

Background: This unique Australian AD, issued in 1986, required a one off inspection of the horizontal stabiliser eyebolts in accordance with Snow Engineering Co. Service Letter No. 62 to ensure the bushing did not cut into the eyebolt radius. The AD compliance was within 20 hours time in service after 28 May 1986. As all aircraft would have been inspected by now, this AD is no longer required.
