## AIRWORTHINESS DIRECTIVE

---

On the effective date specified below, and for the reasons set out in the background section, the CASA delegate whose signature appears below revokes Airworthiness Directive AD/AUS/7.

---

### Auster/Beagle A.61 Series Aeroplanes

**AD/AUS/7**

**Engine Mount Attachment Bolt**

**8/2009**

Requirement: CANCELLED.

This AD is cancelled on 30 July 2009.

Background: This AD, raised in 1950, required a modification by replacing upper and lower engine mount attaching bolts marked "NEWTON" and replacing with high tensile steel bolts to B.S.S. Specification No. 2A.15. Compliance was required forthwith.

As all affected aircraft would have been modified long ago, this AD is no longer required.

David Villiers  
Delegate of the Civil Aviation Safety Authority

18 June 2009
