
AIRWORTHINESS DIRECTIVE

On the effective date specified below, and for the reasons set out in the background section, the CASA delegate whose signature appears below revokes Airworthiness Directive AD/AUS/13.

Auster/Beagle A.61 Series Aeroplanes

AD/AUS/13

Wing Root Fairing Band

10/2009

Requirement: CANCELLED.

This AD is cancelled on 24 September 2009.

Background: This AD, raised in 1959, was applicable to all models fitted with metal wing root fairing bands, and required an inspection of the bands for security and freedom from chaffing and cracks. Compliance was required at intervals not exceeding 100 hours TIS.

There are no records related to this AD contained in the mandatory defect reporting system, and maintenance schedules adequately cover inspections of the wing. Hence, this AD is no longer required.

David Villiers
Delegate of the Civil Aviation Safety Authority

12 August 2009
