
AIRWORTHINESS DIRECTIVE

On the effective date specified below, and for the reasons set out in the background section, the CASA delegate whose signature appears below revokes Airworthiness Directive AD/CESSNA 185/16 Amdt 1.

Cessna 185 Series Aeroplanes

**AD/CESSNA 185/16
Amdt 1**

**Aileron Mass Balance
Weight Attachment Rivets**

7/2008

Requirement: CANCELLED.

This AD is cancelled on 3 July 2008.

Background: This unique Australian AD, issued in 1972, required a repeat inspection every 100 hours of the aileron mass balance weight attachment rivets for corrosion. The Significant Defect Reporting data base revealed no defects have been reported on this aircraft model since 1980. As this type of inspection would be carried out during normal maintenance, this AD is no longer required.

David Villiers
Delegate of the Civil Aviation Safety Authority

22 May 2008
