
AIRWORTHINESS DIRECTIVE

On the effective date specified below, and for the reasons set out in the background section, the CASA delegate whose signature appears below revokes Airworthiness Directive AD/CESSNA 185/24.

Cessna 185 Series Aeroplanes

AD/CESSNA 185/24

Fuel and Oil Leaks

7/2008

Requirement: CANCELLED.

This AD is cancelled on 3 July 2008.

Background: This unique Australian AD, issued in 1977, required inspection for chafing of the oil line and the fuel line, and the installation of protective spiral wrap on these lines, in accordance with Cessna Service Letter SL76-23 Item Number 1. The compliance of this AD was within 100 hours time in service after 31 March 1977. As all aircraft would have been inspected by now, the unsafe condition no longer exists.

James Coyne
Delegate of the Civil Aviation Safety Authority

22 May 2008
