
AIRWORTHINESS DIRECTIVE

On the effective date specified below, and for the reasons set out in the background section, the CASA delegate whose signature appears below revokes Airworthiness Directive AD/CESSNA 185/26.

Cessna 185 Series Aeroplanes

AD/CESSNA 185/26

Fuel Line

7/2008

Requirement: CANCELLED.

This AD is cancelled on 3 July 2008.

Background: This unique Australian AD, issued in 1977, required inspection in accordance with Cessna Service Letter SE 77-17 to determine that adequate clearance exists between the fuel line and the elevator control cable. The AD required compliance within 100 hours time in service after 31 August 1977. As all affected aircraft would have been inspected, this AD is no longer required.

James Coyne
Delegate of the Civil Aviation Safety Authority

22 May 2008
