## AIRWORTHINESS DIRECTIVE

---

On the effective date specified below, and for the reasons set out in the background section, the CASA delegate whose signature appears below revokes Airworthiness Directive AD/CESSNA 188/26.

---

### Cessna 188 (Agwagon) Series Aeroplanes

**AD/CESSNA 188/26**

**Fuel Vent Line**

**9/2008**

Requirement: CANCELLED.

This AD is cancelled on 28 August 2008.

Background: This unique Australian AD, issued in 1975, required modification to the fuel vent lines in accordance with Cessna Service Letter SE 75-18 to maintain adequate clearance between the lines and the diagonal tubular brace in the forward stub wing area. The AD required compliance within 100 hours time in service after 28 November 1975. As all affected aircraft would have been modified, this AD is no longer required.

James Coyne  
Delegate of the Civil Aviation Safety Authority

16 July 2008
