

Hose Assemblies

**AD/HOSE/2
Amdt 2**

**Airframe Flexible Hose Assemblies
Inspection and Testing**

12/96

CANCELLED.

Background: A review of this Directive has been carried out and it has been determined that the Directive no longer serves its original intent.

Aircraft and equipment manufacturers' maintenance information adequately addresses the subject of hose inspection and maintenance. Certificate of Registration holders' responsibility is to ensure that this information is included in the approved maintenance schedules for their aircraft.

Advice to Certificate of Registration holders on this change to hose inspection criteria will be published in an article in the CASA publication, Flight Safety Australia, at the earliest opportunity.
