
AIRWORTHINESS DIRECTIVE

On the effective date specified below, and for the reasons set out in the background section, the CASA delegate whose signature appears below revokes Airworthiness Directive AD/INST/36.

Instruments and Automatic Pilots

AD/INST/36 **Collins ALI-80() Barometric Altimeter** **3/2009**

Requirement: CANCELLED.

This AD is cancelled on 12 March 2009.

Background: This unique Australian AD raised in 1988 against Collins ALI 80() Service Bulletin (SB) SB 21 required a modification to those Collins ALI-80 Barometric Altimeters not marked SB 21 on the unit modification chart to prevent smoke in the cockpit.

Compliance was prior to 31 August 1989.

As all affected ALI-80 () Barometric Altimeters would have been modified by now, this AD is considered to be no longer required.

James Coyne
Delegate of the Civil Aviation Safety Authority

27 January 2009
