COMMONWEALTH OF AUSTRALIA CIVIL AVIATION SAFETY AUTHORITY SCHEDULE OF AIRWORTHINESS DIRECTIVES

AIRWORTHINESS DIRECTIVE

On the effective date specified below, and for the reasons set out in the background section, the CASA delegate whose signature appears below revokes Airworthiness Directive AD/OXY/1.

Oxygen Systems

AD/OXY/1 Mask Rebreather Bag Security - Inspection 4/2009 and Modification

Requirement: CANCELLED.

This AD is cancelled on 9 April 2009.

Background: This unique Australian AD raised in 1971 against Scott Aviation Modification

Instruction No. 1-298 (attachment to Service Letter (SL) No.485) required an inspection and modification to prevent the oxygen Constant Flow Mask Assembly rebreather bag from separating from either the bag tube or face mask during usage.

Compliance was within 100 hours TIS after 30 July 1971.

As all affected mask assemblies would have been inspected and modified by now, this AD is considered to be no longer required.

James Coyne

Delegate of the Civil Aviation Safety Authority

12 February 2009
