
AIRWORTHINESS DIRECTIVE

On the effective date specified below, and for the reasons set out in the background section, the CASA delegate whose signature appears below revokes Airworthiness Directive AD/RAD/22.

Radio Communication and Navigation Equipment

AD/RAD/22 **Press-to-Talk Assembly - Modification** **4/2009**

Requirement: CANCELLED.

This AD is cancelled on 9 April 2009.

Background: This unique Australian AD was raised in 1971 requiring a modification to Aerosound 555-900 Press-to-Talk assembly to ensure that a transmitter would not remain energised after the Press-to-Talk button is released.

Incorporation of Air Communications Pty. Ltd. modification specification AC-M-1004 was an acceptable means of compliance.

Compliance was before 1 April 1971.

Given the extended period this AD has been promulgated, and that affected Press-to-Talk assemblies would have been modified by now, this AD is considered to be no longer required.

James Coyne
Delegate of the Civil Aviation Safety Authority

19 February 2009
