## AIRWORTHINESS DIRECTIVE

---

On the effective date specified below, and for the reasons set out in the background section, the CASA delegate whose signature appears below revokes Airworthiness Directive AD/RAD/55.

---

### Radio Communication and Navigation Equipment

**AD/RAD/55**                      **Rockwell International, Collins Air Transport**      **10/2006**  
**Division, TCAS II Processors**

Requirement:      CANCELLED.

This AD is cancelled on 28 September 2006.

Background:      The original issue of this Directive required the software of Rockwell Collins TTR-920 TCAS II processors be upgraded to Version 6.04A 'enhanced'. This requirement is redundant as all Airborne Collision Avoidance Systems in Australia must now incorporate Version 7 software (see Civil Aviation Regulation (1988) 262AB).

James Coyne  
Delegate of the Civil Aviation Safety Authority

14 August 2006
