This AD is cancelled on 18 December 2008.

Background: This unique Australian AD raised in 1994 against Loran Data Systems, Fairchild

Aviation Recorders Bulletin DFR 027 (F800-321-027 Rev 2 required a modification mandated by the then Bureau of Air Safety Investigation (BASI), Department of Transport and Communications, following reports of possible failure and erroneous tracking changes identified to a component on the Loran Data System Central

whichever occurs earlier.

As all affected aircraft would have been modified by now, this AD is considered to be

no longer required.
