
AIRWORTHINESS DIRECTIVE

On the effective date specified below, and for the reasons set out in the background section, the CASA delegate whose signature appears below revokes Airworthiness Directive AD/RES/9.

Restraint Equipment

AD/RES/9

**Unapproved Safety Belts and
Harnesses - Removal From Service**

12/2007

Requirement: CANCELLED.

This AD is cancelled on 22 November 2007.

Background: This AD required removal from service before 1 January 1977 of seat belts with a locking action achieved by the belt webbing being wedged by spring pressure between two metal parts either of which is serrated or knurled. As this is a once off compliance with all belts being removed from service, this AD is now obsolete.

David Villiers
Delegate of the Civil Aviation Safety Authority

11 October 2007
