## AIRWORTHINESS DIRECTIVE

---

On the effective date specified below, and for the reasons set out in the background section, the CASA delegate whose signature appears below revokes Airworthiness Directive AD/SUPP/5 Amdt 1.

---

### Supplementary Equipment

**AD/SUPP/5**                      **Air Equipment Hoists - "Up Limit" Micro**                      **4/2009**  
**Amdt 1**                              **Switches - Inspection and Modification**

Requirement:      CANCELLED.

This AD is cancelled on 9 April 2009.

Background:      This unique Australian AD was raised in 1985 against Air Equipment Service Information Letter No. 25.62.0E to prevent cable failure due failure of a dual "up limit" micro switch. Compliance was required by 31 August 1985.

As all affected aircraft would have been inspected, and, if necessary, modified long ago, this AD is no longer required.

David Villiers  
Delegate of the Civil Aviation Safety Authority

26 February 2009
