

SCHEDULE OF AIRWORTHINESS DIRECTIVES

AIRWORTHINESS DIRECTIVE

For the reasons set out in the background section, the CASA delegate whose signature appears below issues the following Airworthiness Directive (AD) under subregulation 39.001(1) of CASR 1998. The AD requires that the action set out in the requirement section (being action that the delegate considers necessary to correct the unsafe condition) be taken in relation to the aircraft or aeronautical product mentioned in the applicability section: (a) in the circumstances mentioned in the requirement section; and (b) in accordance with the instructions set out in the requirement section; and (c) at the time mentioned in the compliance section.

Boeing 747 Series Aeroplanes

AD/B747/398 State of Design Airworthiness Directives - 1 14/2009

Applicability: Boeing 747-400 aircraft and 747 aircraft with General Electric CF6-80 or Rolls-Royce engines.

- Requirement:
1. Determine the applicability of the FAA Airworthiness Directives (AD) listed in Table 1.
 2. If it is determined that an FAA AD listed in Table 1 is applicable and has not been previously accomplished, perform the actions required by that AD or later FAA-approved revision.

Table 1

FAA AD	Effective Date	Title
2007-04-10	23 March 2007	Decompression panels
2005-05-20	17 April 2006	Flight-deck door electronic equipment
2002-23-15	11 December 2002	Lower lobe panel
2000-11-08	6 July 2000	Fuel nozzles
96-11-03	26 June 1996	Fuel line
96-08-05	23 May 1996	Strut fuel tubes and couplings
96-03-10	20 February 1996	Forward engine strut
95-13-06	28 July 1995	Nacelle strut and wing structure
95-02-13	17 March 1995	Fire extinguishers in engine nacelles
94-22-08	15 December 1994	Engine strut skin
93-18-07	3 November 1993	Fire extinguisher discharge tubes
92-14-07	20 August 1992	Fire extinguisher tubes
92-13-08	5 August 1992	Drain masts

Boeing 747 Series Aeroplanes

AD/B747/398 (Continued)

FAA AD	Effective Date	Title
92-06-01	13 April 1992	Fuel tubes
92-04-05	26 March 1992	APU pneumatic duct restraint
91-13-11	22 July 1991	Wire bundles

Note 1: FAA ADs may be accessed via the internet at the following URL:

<http://rgl.faa.gov>

Compliance: If a certificate of airworthiness has not been issued for the aircraft - before issue of the certificate of airworthiness.

If a certificate of airworthiness has been issued for the aircraft – before further flight after 60 days from the effective date of this Directive.

This Airworthiness Directive becomes effective on 30 July 2010.

Background: The FAA ADs listed in Table 1 of this Directive require once-only actions for which the compliance date has passed. CASA has determined that these ADs may be applicable to some Australian aircraft. This Directive is issued to ensure compliance with all State of Design ADs.

CASA appreciates that, due to date of aircraft manufacture or aircraft configuration and modification status, some of the ADs listed in Table 1 will not be applicable to any aircraft presently registered in Australia.

David Punshon
Delegate of the Civil Aviation Safety Authority

14 July 2010
