

Bombardier (Canadair) CL-600 (Challenger) Series Aeroplanes

---

**AD/CL-600/8      Landing Gear Electrical Harnesses - Modification      3/83**

Applicability: All model CL600 aeroplanes as per requirement document.

Document: Canadair Challenger SB No. 600-0159.

Compliance: Before issue of Australian Certificate of Airworthiness.

Background: To prevent landing gear proximity switches from being affected by electromagnetic interference. This may result in loss of aircraft brakes while landing and taxiing with anti-skid system in use.
