AD/HS 125/10 Flap Centre Hinge Bolt - Modification 8/2010
Amdt 1

Requirement: CANCELLED.

This AD is cancelled on 22 April 2010.

Background: This AD was raised in 1967 and amended in 1968 against Hawker Siddeley Service Bulletin (SB) 125-27-49 initially requiring an inspection, followed by a modification, to prevent the flap centre hinge bolt retaining nut becoming unlocked in service. Compliance was initially an inspection within 10 hours TIS followed by a modification before 1 July 1968.

As this AD has been promulgated over an extended period it is considered to be no longer required. This AD is therefore cancelled.
