

British Aerospace BAe 125 Series Aeroplanes

---

**AD/HS 125/54      Fuselage Front Pressure Bulkhead - Inspection      10/80**

Applicability: All HS/DH/BH 125 models up to and including Series 400.

Document: British Aerospace 125 SB No. 53-52.

Compliance: As per requirement document except that stated flights shall be pressurised flights.

Background: Cracking in the corner bend radii of both control pressings on one aircraft was discovered on an overseas aeroplane after 6700 flights.
