

British Aerospace BAe 125 Series Aeroplanes

AD/HS 125/59 Cold Air Unit Fragmentation Guard - Installation 3/82

Applicability: As detailed in the requirement document.

Document: British Aerospace HS 125 SB No. 21-123-(2815).

Compliance: Before 31 March 1983.

Background: A fragmentation guard is installed around the fan housing of the cold air unit to protect the main engine beam in the event of a fan bursting failure.
