
AIRWORTHINESS DIRECTIVE

On the effective date specified below, and for the reasons set out in the background section, this AD is revoked by CASA ADCX 007/10.

British Aerospace BAe 125 Series Aeroplanes

AD/HS 125/120

Rudder Pedal Torque Tubes

8/2010

Requirement: CANCELLED.

This AD is cancelled on 22 April 2010.

Background: This AD was raised in 1991 against British Aerospace Service Bulletin (SB) 27-155 requiring an NDT inspection of the rudder pedal torque tubes. Compliance was required at the earliest opportunity but not later than 29 February 1992, or at next Service 'A', whichever was the sooner.

As this AD requiring a one-time inspection has been promulgated for an extended period it is considered to be no longer required. This AD is therefore cancelled.
