

Israel Aircraft Industries 1123 and 1124 (Westwind) Series Aeroplanes

AD/IAI-W/8

**Navigation Equipment Mounting Latch
Guard - Inspection and Modification**

2/82

Applicability: All model 1124 Westwind Series Aeroplanes with GNS 500A or LRN 85 Receiver Computer Units (RCU) mounted above rear baggage compartment.

Part I - S/N up to and including 306.

Part II - S/N 307 to 309, 311 to 316, 318 to 324.

Document: IAI 1124 Westwind SL No. WN-2460A except that locally available parts may be used in place of Kit No. SL WW-2460A.

Compliance: Within 100 hours time in service after 28 February 1982.

Background: Elevator control rod interference has been reported on aircraft where the RCU has been removed.
