

British Aerospace BAe 3100 (Jetstream) Series Aeroplanes

AD/JETSTREAM/42

**Hydraulic Power - Emergency
Hydraulic Hand Pump**

4/91 DM

- Applicability: Jetstream Series 3100 Aircraft construction number 601 to 646, 648 to 655, 658 and 660.
- Requirement: Inspect and/or modify subject aircraft in accordance with British Aerospace Service Bulletin, CAA (UK) Mandatory, 29-JM 7360 Revision 1.
- Compliance: As specified in the Requirement Document but with a revised effectivity date of 18 April 1991 for Australian registered aircraft.
- Background: Cases have been reported of difficulty in gaining access to the emergency hydraulic hand-pump following hydraulic systems failures.
