

British Aerospace BAe 3100 (Jetstream) Series Aeroplanes

AD/JETSTREAM/43

Flying Controls - Audible Warning

6/91 T

Applicability: All Jetstream series 3100 aircraft.

Requirement: Action in accordance with the British Aerospace Alert Service Bulletin 27-A-JA 910340.

Note 1: This Alert SB is classified MANDATORY by the CAA (UK).

Note 2: CAA (UK) Airworthiness Directive 017-03-91 also refers.

Compliance: Prior to 15 April 1991.

Background: Action in accordance with the requirement document is necessary in order to avoid the possibility of uncommanded nose-down pitching motion of the aircraft when conducting landings with the wing flaps extended to 50 degrees and with ice present on the tailplane.
