

SAAB SF340 Series Aeroplanes

AD/SF340/27 **Lavatory Circuit Breaker Replacement** **7/91**

Applicability: As specified in the Requirement Document.

Requirement: Action in accordance with the technical requirements Swedish AD 1-045.

Note: SAAB-SCANIA SB 340-25-181 also refers.

Compliance: Prior to 8 December 1991.

Background: Action in accordance with this AD is necessary in order to prevent possible wire overload if a failure occurs in the forward or aft lavatory electrical system.

Note: The compliance date specified in the Requirement document has been extended from 8 September 1991 to 8 December 1991.
