

Volkswagen Derivative Piston Engines

AD/VW/2

Cast Crankshafts

8/88

- Applicability: Revmaster R2100D engines fitted with ductile steel crankshafts.
- Requirement: Replace cast crankshafts fitted to applicable engines with the equivalent forged crankshaft.
- Compliance: Before installation in an aircraft.
- Background: This Directive has been issued to reflect, in part, the requirements of cancelled Airworthiness Directive ANO 106 AD/REV/1A. The inspection requirements of AD/REV/1A are now contained in Airworthiness Directive ANO 106 AD/VW/1.
