

McDonnell Douglas (Hughes) and Kawasaki 369 Series Helicopters

AD/HU 369/67
Amdt 1

Main Rotor Retention Strap

4/88

Applicability: All models.

Requirement: Action in accordance with Part 1 of McDonnell Douglas SIN HN214, DN154, EN44 or FN33 as applicable.

Compliance: As applicable by helicopter model, either:

- (a) within three months or one hundred hours time in service after the previous compliance with AD/HU 369/28D whichever occurs first; or
- (b) within nine months or three hundred hours time in service after the previous compliance with the initial issue of this Directive whichever occurs first;
- (c) and thereafter in accordance with the Requirement document.

Background: The manufacturer has consolidated the inspection within the single SIN.
