

Kawasaki BK 117 Series Helicopters

---

**AD/BK 117/5                      Electrical Bonding and Static Dischargers                      2/94**

Applicability:    Kawasaki Heavy Industries BK 117 series helicopters serial numbers 1001 through 1066 inclusive, except 1007 and 1036.

Requirement:    Action in accordance with Kawasaki Heavy Industries Service Bulletin KSB-117-077 dated 1 February 1991.

*Note: JCAB AD TCB-3432-91 refers.*

Compliance:    If not previously accomplished, then prior to 3 August 1994.

Background:    The JCAB has received reports of electrostatic discharge igniting fires at fuel vent line outlet ports. Compliance with this directive will decrease the likelihood of electrostatic discharge causing a fire hazard.
