

Allison Turbine Engines - 250 Series

AD/AL 250/57

Turbine Shaft - Inspection

3/85

CANCELLED.

Background: This Directive is cancelled as the Requirement Document, Allison CEB-A-72-3108 Rev. 2, inspection requirements are now incorporated in AD/AL 250/63 Amdt 3. CEB 72-3103, which was one of the documents exempting engines from this inspection, introduced turbine to compressor shaft P/N 23008080. This shaft has now been removed from service for C30 C30S engines in S76 helicopters - AD/AL 250/63 Amdt 3 Refs.
