

Rolls Royce Turbine Engines - RB211 Series

AD/RB211/8

**H.P. Compressor Rotor Stage 4 to 6
Shaft Assembly - Life Limitation**

5/83

CANCELLED.

Background: Extensive laboratory investigation and stress analysis has now shown that the life restriction placed upon the affected assemblies by Rolls Royce RB211 SB211-72-6420 can be removed. They can now assume the same life as their unaffected equivalent parts.
