Rudder Hinges - Inspection

5/2009

Requirement: CANCELLED.

This AD is cancelled on 7 May 2009.

Background: This unique Australian AD, issued in 1983, required inspection of the rudder hinges in accordance with Snow Engineering Co. Service Letter No. 48. The AD compliance was within a 100 time in service after 31 July 1983 and every year thereafter. As the manufacturer's service letter did not require a repeat inspection, and a search of the SDR system revealed no defects of the rudder hinge for this aircraft type, this AD is no longer required.
