

Beechcraft 18 Series Aeroplanes

---

**AD/BEECH 18/18  
Amdt 1**

**Control Columns and Elevator Control  
Arm Assembly - Inspection**

**12/87**

Applicability: All models.

Requirement: Inspect the Control Columns and Elevator Control Arm Assembly as detailed in Beechcraft SI 0889-155. In addition inspect for cracks on the Control Column Assembly P/N 187510, tubing, outer surface for a distance of 11 cm up the tube above the lower welded tube splice. The same area on the co-pilot's Control Column is also to be inspected. The inspection is to be performed using visual and either magnetic particle, or penetrant procedures; or

FAA AD 77-19-07.

Compliance: Within 100 hours after 31 December 1977 and thereafter at 300 hour intervals.
