
AIRWORTHINESS DIRECTIVE

On the effective date specified below, and for the reasons set out in the background section, the CASA delegate whose signature appears below revokes Airworthiness Directive AD/FA-200/4.

Fuji FA-200 Series Aeroplanes

AD/FA-200/4

Main Fuel Tank Vent - Modification

7/2009

Requirement: CANCELLED.

This AD is cancelled on 2 July 2009.

Background: This unique Australian AD raised in 1970 against Fuji Industries Service Bulletin (SB) SB No. FAS-007 required a modification to prevent misalignment of main fuel tank vent hose with main outlet. Compliance was within 100 hours TIS after 23 March 1970.

This AD has been sufficiently promulgated for the affected aircraft to have been modified by now; therefore this AD is considered to be no longer required.

James Coyne
Delegate of the Civil Aviation Safety Authority

22 May 2009
