
AIRWORTHINESS DIRECTIVE

On the effective date specified below, and for the reasons set out in the background section, the CASA delegate whose signature appears below revokes Airworthiness Directive AD/FA-200/8.

Fuji FA-200 Series Aeroplanes

AD/FA-200/8 Pitot Static Water Drain Access - Modification 7/2009

Requirement: CANCELLED.

This AD is cancelled on 2 July 2009.

Background: This AD, raised in 1970, required a modification by installation of a rubber blanking grommet in the pitot-static water drain access hole. Compliance was required within 100 hours TIS after 31 July 1970.

As all affected aircraft would have been modified long ago, this AD is no longer required.

David Villiers
Delegate of the Civil Aviation Safety Authority
