## AIRWORTHINESS DIRECTIVE

---

On the effective date specified below, and for the reasons set out in the background section, the CASA delegate whose signature appears below revokes Airworthiness Directive AD/FA-200/10.

---

### Fuji FA-200 Series Aeroplanes

**AD/FA-200/10**

**Oil Cooler Lines - Modification**

**7/2009**

Requirement: CANCELLED.

This AD is cancelled on 2 July 2009.

Background: This unique Australian AD raised in 1971 required a modification by replacement of all aluminium oil lines between the engine and oil cooler with either stainless steel, or fire resistant flexible hoses.

Compliance was within 25 hours TIS after 19 July 1971, or before 30 September 1971 whichever occurs first.

This AD has been sufficiently promulgated for the affected aircraft to have been modified by now; therefore this AD is considered to be no longer required.

James Coyne  
Delegate of the Civil Aviation Safety Authority

22 May 2009
