

GAF N22 and N24 Series Aeroplanes

---

**AD/GAF-N22/61**  
**Amdt 1**

**Trim Tab Hinge**

**6/91**

- Applicability: Nomad series aircraft with S/Nos N22S-159 to N22S-165 inclusive, incorporating Mod N663.
- Requirement: Action in accordance with ASTA Nomad Alert SB ANMD-55-25 Parts 1 and 2.
- Compliance: For Part 1. In accordance with initial issue of this Directive: Prior to exceeding 10 hours time in service after 6 June 1990.
- For Part 2. In accordance with initial issue of this Directive: Prior to exceeding 200 hours time in service after 6 June 1990.
- The effective date of this amendment is 13 June 1991.
- Background: A condition may exist where the trim tab position of the horizontal stabilizers is incorrect, leading to a possibility of binding and overstress of the trim tab linkage with the stabilizer and trim setting at certain positions.
- This Amendment is raised to introduce a Revision of the Requirement document, which issues the accomplishment instructions for Part 2; replacement of the trim tab hinge.
