## AIRWORTHINESS DIRECTIVE

---

On the effective date specified below, and for the reasons set out in the background section, the CASA delegate whose signature appears below revokes Airworthiness Directive AD/L200/9.

---

### Morava L200 Series Aeroplanes

**AD/L200/9**

**Control Wheel Rod - Inspection**

**7/2009**

Requirement: CANCELLED.

This AD is cancelled on 2 July 2009.

Background: This AD, raised in 1979 against Omnipol Service Bulletin (SB) No. L200/16, required an inspection and modification of the control wheel to guide joint following a report to the manufacturer of a control wheel failure. Compliance was required before issue of Certificate of Airworthiness.

As all affected aircraft would have been inspected, and, if necessary, modified long ago, this AD is no longer required.

David Villiers  
Delegate of the Civil Aviation Safety Authority

19 May 2009
