
AIRWORTHINESS DIRECTIVE

On the effective date specified below, and for the reasons set out in the background section, the CASA delegate whose signature appears below revokes Airworthiness Directive AD/ML-M4/6.

Maule M-4 Series Aeroplanes

AD/ML-M4/6

Wing Inspection Holes - Modification

2/2009

Requirement: CANCELLED.

This AD is cancelled on 12 February 2009.

Background: This unique Australian AD, issued in 1969, required installation of access panels in the wings, in accordance with Maule Drawing No. WI-E622Rev 2, to enable inspection of the wing spars. The AD compliance was forthwith. As all aircraft would have been modified by now, the AD is no longer required.

David Punshon
Delegate of the Civil Aviation Safety Authority
